5. Kröger Barracks

In the yard men were trained at three to four guns. They seemed to be 7.62 cm guns. It was quiet in the Moltke Barracks. On the training grounds near Monumentenburg there were four or five tanks which later drove into the woods behind the Buckholz barracks. Since the middle of February the Lischstrasse quarters have been fully occupied. In the beginning of the month only two or three houses were occupied.

6. Schwerin

On 15 February twelve to fifteen G-cars were equipped. Benches and stoves were installed. Four G-cars recently equipped with benches stood at the railroad station on 22 February. The cars were guarded. Truck [] 25X1 drove gasoline cans away.

7. Railway Schwerin-Görries

The two tracks are ready but not as yet in use. The stretch to Holthusen has not been worked on yet.

8. Construction jobs.

Construction is being done north of the road Hasenhäge-Boldela. At the present time they are working in two shifts, felling trees, removing stumps, and leveling the terrain. It seems that they are going to construct a new airfield.*
